

Full Synthetic 50W Transmission Oil

STARFIRE Full Synthetic 50W Transmission Oil is specifically designed for service in manual Heavy Duty transmission applications that are subject to severe duty and extended drain intervals. STARFIRE Full Synthetic 50W Transmission Oil is formulated with synthetic base stocks and advanced additives to provide outstanding cold temperature performance and protect against corrosion, oxidation and deposits.

BENEFITS

- Provides excellent protection against wear under extreme pressure and high torque operation
- High resistance to thermal breakdown
- Helps prevent foaming, rust and corrosion

APPLICATION:

- API MT-1
- Eaton PS-386, PS-164 Rev 7
- Navistar/International TMS 6816
- Mack TO-A Plus
- Meritor 0-81 (Publication TP-90014)
- ZF Freedom line

TYPICAL PROPERTIES

Typical Test Data	SAE 50 W TRANS
Pour Point, °C	-33
Viscosity: cSt @40°C	134.7
cSt @ 100°C	19.2
Viscosity Index	165
Density (lb/gal) @ 60F	7.1
Specific Gravity	0.9
Gravity, API	34.2
Color	L1.5
