

Non-Detergent Lubricants

STARFIRE ND Lubricants are formulated with select base stocks and non-foaming additives that do not contain detergents. STARFIRE ND Lubricants satisfy API SA or SB performance and can be used in engines calling for non-detergent motor oil.

APPLICATIONS

STARFIRE ND Lubricants may be recommended for light engines that call for a mineral non-additive or lightly additized motor oil, compressors, AGMA Non EP Gear Oils, circulating oils and low pressure hydraulic systems.

ALWAYS REFER TO ENGINE MANUFACTURERS MANUAL FOR LUBRICANT REQUIREMENTS.

TYPICAL PROPERTIES

SAE Grade	10	30	40	50
Pour Point, °C	-36.5	-32	-34	-26
Viscosity: cSt @ 40°C	32.7	77.1	120.3	179.9
cSt @ 100°C	5.5	9.6	13.7	16.9
Viscosity Index	104.3	102	111	99.7
Density (lb/gal)	7.2	7.3	7.3	7.4
Color	1	2.3	6.5	5.8
