

## Conventional Motor Oils

STARFIRE Conventional Motor Oils are engine oil formulated using paraffinic base oils and proven performance additive packages. STARFIRE Conventional Motor Oils can be used in passenger car applications that require API SN and earlier performance specifications.

### FEATURES

STARFIRE Conventional Motor Oils are formulated to provide:

- Protection from deposits at operating temperatures
- Bearing corrosion protection
- Anti-wear, anti-foam and anti-rust properties
- Good cold-cranking capabilities

### APPLICATIONS

- When SN, SM, SL or SJ oils are recommended
- Meets older domestic and foreign car manufacturers' requirements

STARFIRE Conventional Motor Oils comply with most passenger car and light duty truck engine applications. Listed below are the physical and chemical characteristics of STARFIRE Conventional Motor Oils. Follow equipment manufacturer recommendations for specific applications.
